CEO MESSAGE

I am proud to serve as the CEO of **SAMMAN WOOD WORKS FACTORY**. Success is not only looking into the future but also to believe that it's essential to occasionally look into our past from where we began.

We should not expect to stay pioneers in our business unless we measure the growth of our past as well as to take the necessary and appropriate actions to meet the needs of the society and our clients and to keep up with the giant development plan that has been adopted by the Saudi Government (**Saudi Vision 2030**)

The excellence we have reached over the past years is because of:

- We truly understand the needs of our clients.
- High Quality, Low Cost, Timely Completion and Safety Records are always primary.

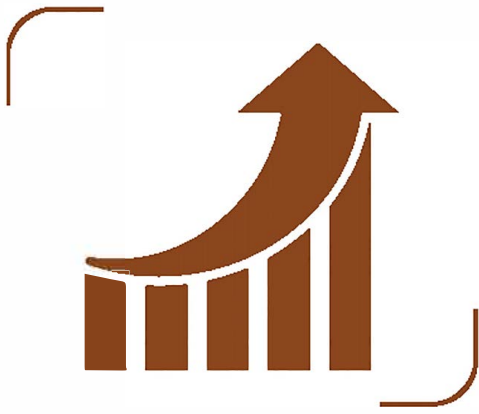

The development, support, trust, and dedication of our loyal staff are the elements that combine to make **SAMMAN WOOD WORKS FACTORY** a winning team.

I ask Allah to grant us His help and surround us with His Blessings.

Your Sincerely,

Eng. M. Firas Alsamman
(CEO)

INTRODUCTION

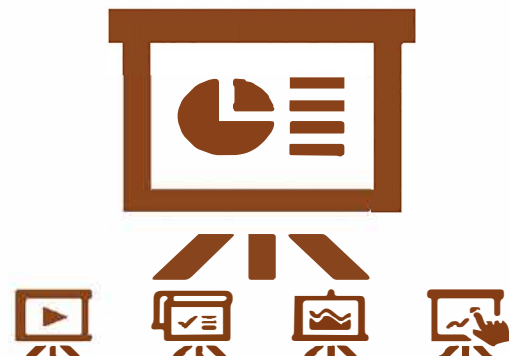

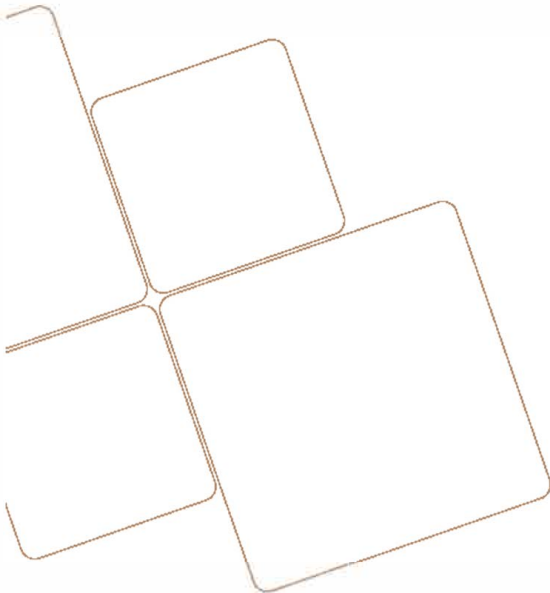

Based on many years of experience and knowledge of its management and the development potential level of its employees **SAMMAN GROUP** is a solid establishment specialized for contracting in building, electrical works, mechanical works, wood works, air distribution systems, road works, water and sanitary works.

We are the second generation of this business that started by **Eng. Yahya Al Samman** since 1973 and now we have a management contract with **SAMMAN GROUP** in Istanbul, Turkey.

And according to that **SAMMAN WOOD WORKS FACTORY** was able to triple the volume of its business during the past few years and now striving to implement another expansion plan to double the volume of its business again.

To achieve this goal **SAMMAN WOOD WORKS FACTORY** is generously investing in its human resources in addition to its financial capabilities.

Our Vision:

We are striving to be one of the bests in the construction field including civil, architectural and electromechanical works for industrial, commercial, service buildings and roads in the Middle East.

Our Mission:

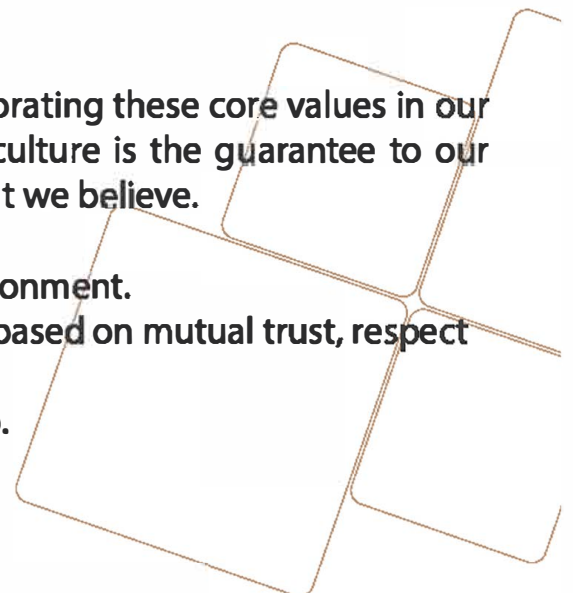

Provide customers with the best service by implementing projects with best quality and lower cost.

Our mission has been known through what we set out to do each day.

Our Values:

SAMMAN'S ethics lead everything we do. Incorporating these core values in our daily work and making them an integral part of our culture is the guarantee to our future success. Our values decides who we are and what we believe.

- Strict commitment to quality, safety and healthy environment.
- An open relationship with our clients and employees based on mutual trust, respect and success.
- Transparency, accountability and integrity in all we do.

The main sections and activities that contributed in our success are:

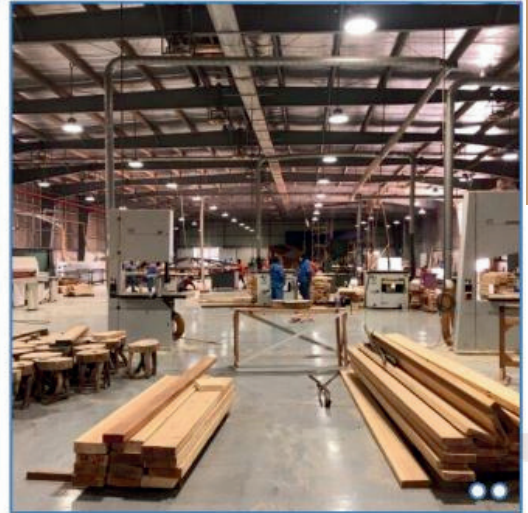

- A planning division to make reachable goals.
- A quality control division to monitor the achievement of each plan.
- Using the latest technology and information transfer to communicate between all departments and employees with the management.
- The factory is in process to add a partner that will make an addition and an advantage to the structure, capital and volume of its business.

Employees:

One of the main reasons that made **SAMMAN WOOD WORKS FACTORY** what it is today, is attracting the talented human resources, develop and maintain them.

A lot of events are organized to keep the relations between all employees not just for work, such as football matches, trips and Ramadan breakfasts. In their gladness and grief we stand with them.

Location and Facilities

EOffice Address: 5402, Ad Dahiah District, Jeddah 22529

Telephone : 00966 59 751 0438 / 00966 55 440 7069

Email: C1150@SAMMANGROUP.COM / CA1490@SAMMANGROUP.COM

Website: SAMMAN WOOD (sammangroup.com)

Production Capacity: Product output rate equivalent to 1500-2000 hotel rooms per year .

Our Products: Fire rated doors / 7 stars hotel furniture

Warehouse: 4,500 sqm

Man Power: 200 workers

Machines: 30

Technical Office Department: 17 Engineers / AutoCAD / 3D Max / Sketchup

Estimation Department: 8 Engineers / Technical & Financial Offer

Procurement Department: 10 Engineers & officers /2 Warehouses

Projects Department: 10 Engineers / 5 Forman 50 Technicians

Planning Department: Cost & Time Control / 3 Engineers Primavera.

Our Machines

Total 30 machines

Panel saws

Are used to cut large sheet materials into smaller rectangular sections and pieces, often as part of an initial sizing process. They consist of a circular saw and an upright framework that supports the work piece and a track that the circular saw travels

Hot pressed wood

Pressed wood, also known as press wood, is any engineered wood building and furniture construction material made from wood veneers, wood shavings and particles, sawdust or wood fibers bonded together with an adhesive under heat and pressure

CNC Wood Carving Machine

CNC Wood Machine Is a kind of automatic machine tool with a Computer numerical control system supporting automatic carving, engraving, cutting, milling, drilling and grooving on different materials, such as wood, foam, stone, plastics, acrylic, glass.

Bandsaw

Bandsaw Is a power saw with a long, sharp blade consisting of a continuous band of toothed metal stretched between two or more wheels to cut material. They are used principally in woodworking, metalworking, and lumbering, but may cut a variety of materials.

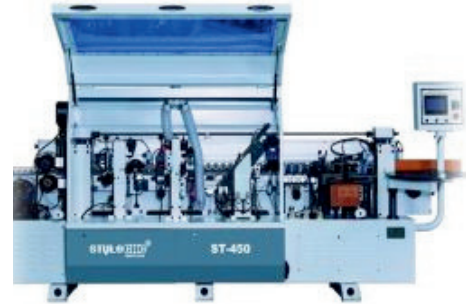

Our Machines

Total 30 machines

Edge Banding Machine

Edge banding machine is a kind of woodworking machinery. It belongs to the category of plate machinery Which is used for edge banding as the name suggests. The traditional manual operation process is completed with highly automated machinery. Including conveying - Premilling-gluing - end cutting - Fine trimming - scraping -buffing. and many other processes.

Woodworking Sliding Table Saw

Woodworking Sliding Table Saw, precision panel saw main function is to use its structural characteristics, that is, to use two fixed saw blades-the scoring saw blade and the main saw blade, to manually push the mobile work made of the aluminum profile carrying the processed board parts The table moves back and forth to realize the sawing of the processed plate.

Single Head Vertical Hinge Drilling Machine

Hinge Drilling Machine It is mainly used for drilling holes of hinges and hinges. It is used for hinge hole drilling of furniture door panels, such as wardrobe door panels, cabinet doors, and office furniture door panels. It is the ideal equipment for cabinets, wardrobes and door manufacturers.

Thickness planer

A thickness planer is a woodworking machine to trim boards to a consistent thickness throughout their length and flat on both surfaces.

Our New Machines

Planer machine

A planer machine is a tool primarily designed to produce planes and flat surfaces with a single-point cutting tool. A planer machine is just like a shaper machine but, it is very large and massive and it is capable of machining heavy jobs which can't be done by the shaper.

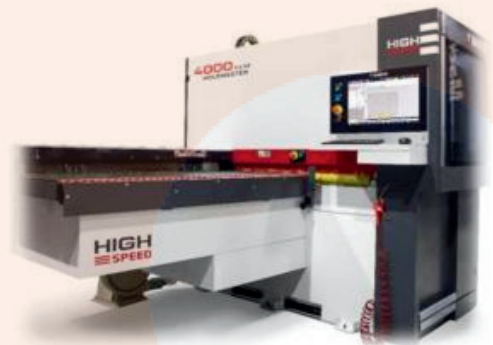

DOOR KEY HINGE BORING MACHINE

- ABILITY OF DRILLING LOCK AND HANDLE SPACE
- ABILITY OF DRILLING HINGE SLOT

Holemaster 4000 X Line

- Holemaster 4000 X Line possesses Italian brand FAM(Morbidelli)
- drilling unit which is composed of 8 vertical bits, 6 horizontal bits and 1 saw blade

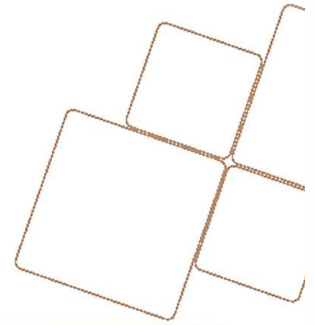

ADVANTAGE 7 EDGEBANDING MACHINE

- PRE MILLING UNIT WITH DOUBLE JUMPING
- GLUE & SCISSORS UNIT
- FIRST - END CUT UNIT
- DISH GUIDED UP & DOWN MILLING UNIT
- TRIMMING - CORNER ROUNDING UNIT (36 MM)
- RADIUS SCRAPING UNIT
- CLEANING LIQUID - BRUSHING UNIT
- GROOVING UNIT
- PALLET SPEED: 10 M/MIN

ABOUT US

Quality Policy

QUALITY POLICY

To provide competitive products and services conforming to customer needs and expectations first time, on time, every time. Consistent with group purpose, **SAMMAN WOOD WORKS FACTORY** shall constantly strive to improve the quality of life of the communities it serves through excellence in all facets of its activities.

We are committed to create value by continually improving our systems and process through innovation, involving all our employees. This policy shall form the basis of establishing and reviewing the quality objective and shall be communicated across the organization. The policy will be reviewed to align with business direction and to comply with all the requirements of the Quality Management Standard.

QUALITY OBJECTIVES

To enhance factory's ability to consistently meet our customers needs, by improving organizational and team effectiveness.

PRODUCT CONFORMANCE

**We strive for conformance of products to standards.
Deliveries are made as per production plan.**

Samman Wood Works Factory

QUALITY POLICY

Samman Wood Works Factory objective is to be the leading manufacturer and supplier of high quality steel & wooden products and new technologies in the processes.

The implementation of the internal procedures which constitute our policy insures that our products and services will comply with and satisfy the business requirements and needs of our Customers.

We strive for continuous improvement and development of products and services to meet the challenging needs and demands of our customers in a timely manner.

We are committed to achieve total customer satisfaction by being diversified, flexible and efficient.

Our success is derived from the success of our Customers. We seek continuous improvement of internal processes to meet the ever- growing demands of today's and future markets.

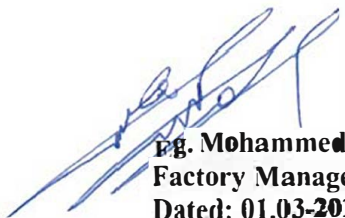

We do not compromise safety. The safety of the employees and customers is the corner stone of our operation.

We coach our employees to be the best in their field. We make them aware of our policies, train them and consequently reward them for being innovative and self-motivated.

We promote our products and services to our customers through highly qualified personnel. Our growth is based on the growth of our personnel.

We are not afraid to change and accept feed back from our customers. Market feedback is the driving force behind our success.

We are committed to continuously monitor and improve the quality system by adopting and implementing a Quality Management System according to the requirements of ISO9001: 2015.

21/02/2024

Halspan® Doors

We hereby confirm authorisation to use our test evidence and assessments and the information contained therein in the design and fabrication of fire doors to 30 minutes, 60 minutes, 90 minutes, 120 minutes and in support of claims to the fire performance of doors so constructed.

The stipulation of this authorisation is that **Halspan®** is used as the core material and that additional material required to complete the fabrication are those laid down in the global assessments.

| Global Assessment | Reference |
|---------------------------------|----------------|
| Halspan 30 Prima Inc Prima Plus | FEA/F97174 |

Fabrication will be to sizes and tolerances stated and it will be the responsibility of **M.U. Al Samman for Wooden Products** to ensure that these are adhered to at all times. It is also the responsibility of **M.U. Al Samman for Wooden Products** to ensure that the door set is fit for the purpose and long term serviceability and conformity to recognized good practice.

Halspan® is a registered trademark owned Halspan Ltd and the name can only be used in the context of doors where the material is used. It is a three layer particle board manufactured by C.P.S. to the specification of Halspan Ltd for fire door construction.

As **Halspan®** is under continuous development there will be additional information made available from time to time.

We will withdraw our authorization to **M.U. Al Samman for Wooden Products** if they fail to demonstrate the use of **Halspan®** or fabricate fire doors not in accordance with information given.

This authorization is valid, initially, for a period of two years from date of issue.

Dear Sir/Madam

We hereby confirm authorisation to use our test evidence and assessments and the information contained therein in the design and fabrication of fire doors to 30 minutes & 60 minutes and in support of claims to the fire performance of doors so constructed.

The stipulation of this authorisation is that **EGGER** is used as the core material and that additional material required to complete the fabrication are those laid down in the global assessments.

Global Assessment

EUROSPAN® FD30 & FD30 Decor
EUROSPAN® FD60

Reference

Chil/A13085
Chil/A10187 Revision A

Fabrication will be to sizes and tolerances stated and it will be the responsibility of SAMMAN WOOD WORKS FACTORY to ensure that these are adhered to at all times. It is also the responsibility of SAMMAN WOOD WORKS FACTORY to ensure that the door set is fit for the purpose, that long term serviceability requirements are met, and to recognise good practice in manufacture and/or installation.

As **EGGER** is under continuous development there will be additional information made available from time to time.

We will withdraw our authorisation to SAMMAN WOOD WORKS FACTORY if they fail to demonstrate the use of **EGGER** or fabricate fire doors not in accordance with information given.

This authorisation is valid, initially, for a period of 2 years from date of issue.

Yours sincerely

Kathryn Ternent

METHOD STATEMENT

Competing task in a safe manner is very important to Al Samman Woodwork. We identify the risks and take steps to reduce them to deliver possibly the best service to our client.

1. General:

The scope of work to be undertaken by Al Samman Woodwork is the supply and installation of its proprietary screen and furniture systems for Public area, reception etc. at your premises.

The work carried out on site is predominately assembly although there is the possibility of sundry works relating to site scribing, the use of water based adhesives on joints and silicon seals to the rear of fitted work surfaces or under side of panel.

The work will be carried out according to our generic risk assessment and any additional assessments the installation supervisor considers necessary. He will liaise regularly with the client's health and safety representative.

The work areas will be tidied at the end of each working period and any waste material either removed from site or placed in skips.

2. DESCRIPTION OF WORK

Wooden Doors, Counters, Cladding, Cabinets, shoe racks, shelves

3. Project Team

Will be discussed mutually and settled at the time of start project.

4. SUPERVISION

The supervisor will named will briefed by the Project Manager. The Supervisor will check access points, goods lifts, and general condition of interior finishes in order pre-empting problems which might arise during installation. All deliveries will be booked in with building manager for set times as per the project request.

5. SITE LABOR

Site labor shall consist of trained installers and handlers under the guidance of the Supervisor.

6. SITE PLANT & EQUIPMENT

All hand tools and plant equipment shall be in good condition and be suitable for their intended duty. Portable electrical equipment is to be battery operated or rated at 230-250 volts on mains power supply or 110 volts through a transformer. Equipment using other operating voltages may be used only with the written consent of the clients Electrical Engineer. Electrical equipment must be tested in accordance with IEE 16th Edition Regulations. The use of electrical equipment of any sort, whether battery or mains powered, must not be undertaken in hazardous areas without prior consultation, and then, only under the control of the "Permit to Work" system.

Fitters usually work in pairs and are monitored by the site supervisor. Tasks are allocated one at a time in order to allow for a regular check on progress.

Work shall be divided into areas, to be completed in a logical sequence, with each area being substantially completed, where possible, before a further area is commenced.

All CW personnel have been fully trained in the installation of the office furniture products, wooden doors, relevant to this project. The project manager is responsible for ensuring that all technical information is available for reference purposes.

7. Wooden Door

- Ensure the door openings are as per the door schedule.
- Position the door frame as per the approved drawings.
- Adjust the door frames if there is any variation.
- Alignment and verticality & horizontal shall be also need to verify and any deviation shall under the required tolerance as specified in the project specification.
- Fix the frame with Screws as per the approved shop drawings.
- Hang the door leaves by hinges which approved as per the specification.
- Fix the architrave on wall to the frame by adhesive (approves material) and steel clamp.
- Fix the ironmongery and accessories in accordance with manufacturer instructions.
- Fix Glass Vision panels an approved material and shop drawings.
- Check to confirm the fixed doors are as per the approved drawings.
- Remove stains after installation.
- Use the approved paints touch up if there are any damages.
- For all fire rated doors site fitment conditions as requirement shall comply the fire rated door global assessment report. All the material and accessories shall be as per the approved drawings.
- WIR should submit to the consultant for the inspection of wooden doors for approval. Any inspection comments from the CONSULTANT shall immediately address by the QA/QC engineer to the responsible site engineer for immediate corrective action. Once the comments are done, QA/QC engineer should inform the CONSULTANT to process.
- Site engineer shall confirm the specification and standards are followed as per the site requirement.
- Fire Rated Sticker will be fix on door shutter between the Hinges with screw. (Fire Rated Door only)

9. JOINERY WORKS

- Ensure all the material are as per the project specification.
- Review all the approved materials documents and shop drawing prior to start the work.
- Installation shall be done in comply with all the project specification.
- Remove any scratches or stains after installation.
- WIR should be submitted to the CONULSTANT for the inspection
- Any inspection comments shall be immediately addressed for the corrective action.
- Cleaning and covering shall be done after the installation as per the project specification.

12. Snagging / Sign Off

Once each area has been completed, the installers responsible will complete a quality checklist of which the site supervisor will check and countersign. Once an area has been snagged, this document will form part of the final sign off procedure, prior to hand over to the client.

The site supervisor is responsible for carrying out all snagging procedures. This will entail an inspection of each area together with either the appointed contact and / or a representative from the client. We undertake to produce clean drawings of each area, upon which any snag can be marked, for signature by both/all parties. Thereafter all issues can be quickly and efficiently resolved.

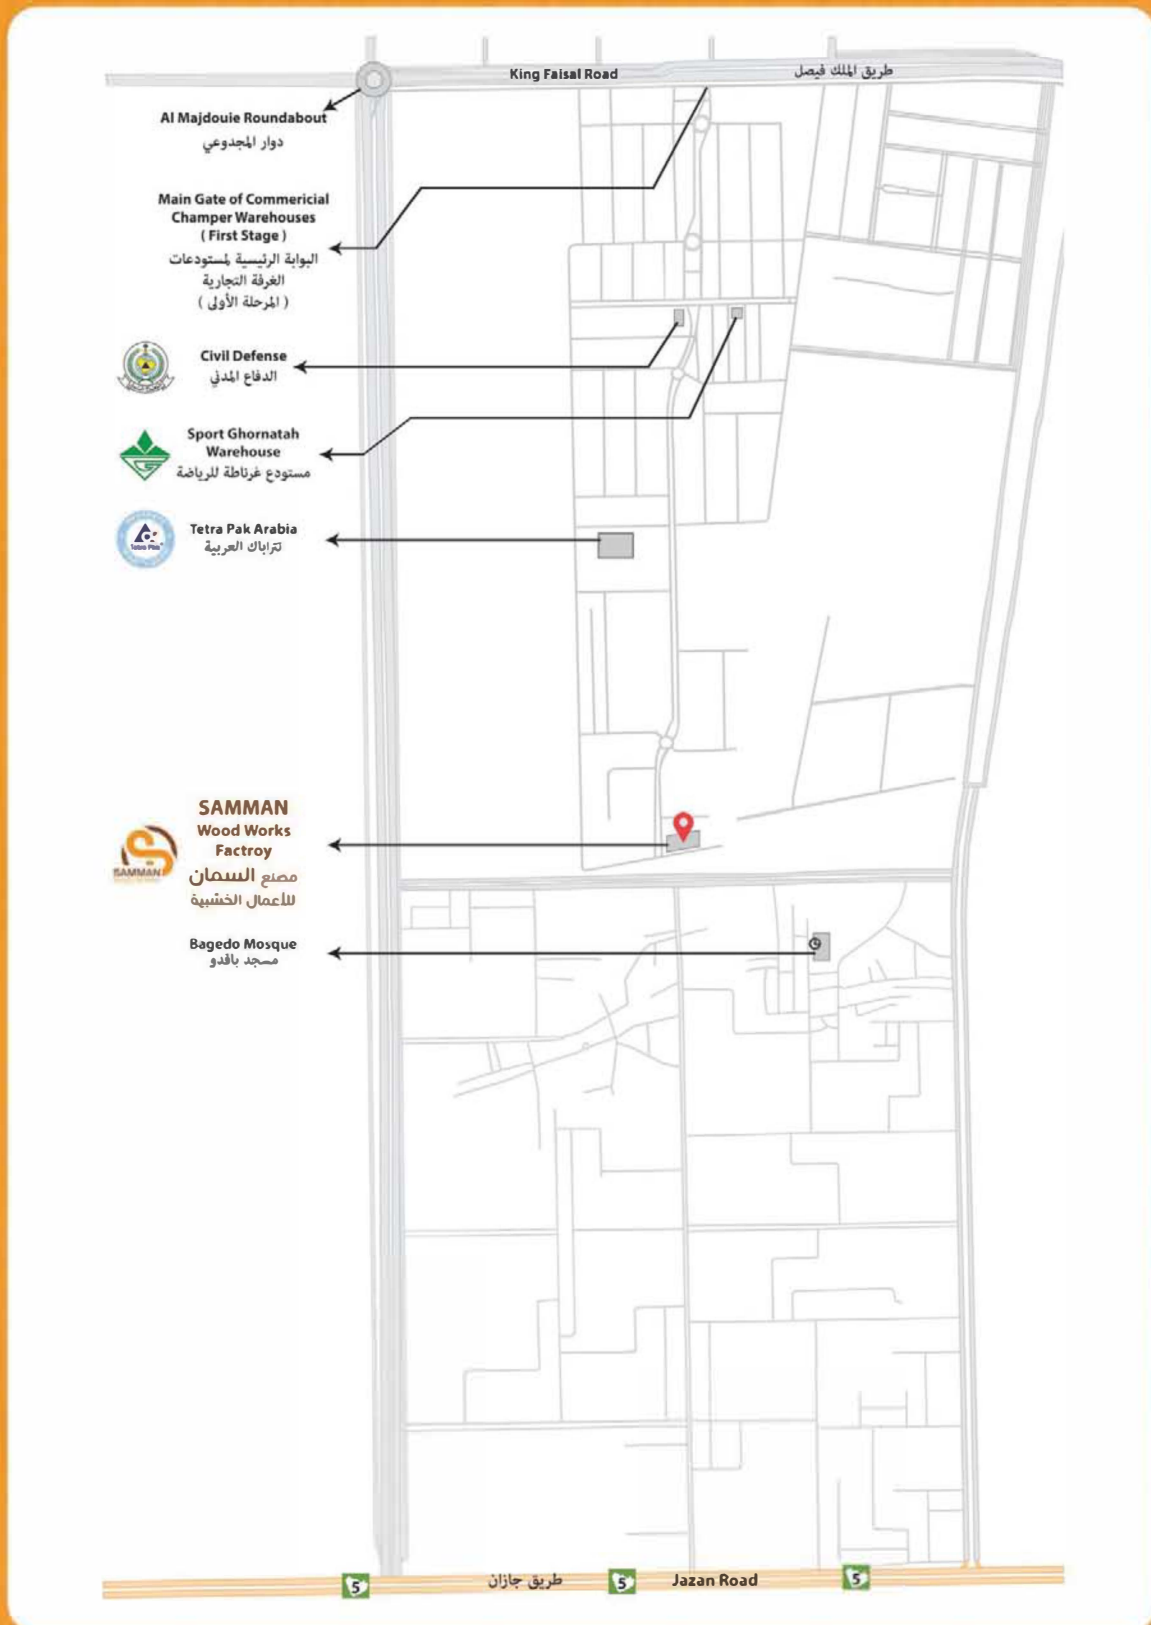

13. Final Clean

On practical completion CW will agree a programme to provide a final clean of the product on sites clear of other contractors etc.

PRELIMINARY HANDING OVER CERTIFICATE

Client : NASEEL HOLDING LLC

Project : HOLIDAY INN ABRAJ AL KISWAH

Contract No. : 142-C-FO-03

Scope of Work : DELIVERY AND INSTALLATION OF FIRE RATED DOORS AND ACCESSORIES

This is to certify that the below committee has inspected the project and found that the works were being carried out as per the scope of works, the approved drawings and specifications. It was confirmed by the consultant and the client representative that the project is operating properly. The project is handed over to the operation and maintenance team on 28/5/2017 and is accordingly under their responsibility for all operation and maintenance works.

Consultant Comments:

Preliminary Handing Over (PHO) snags, which have no effect on the operation of the project, are as per attached lists. The contractor committed to clear it within 60 days from PHO date and to inform officially all parties accordingly.

Project has been operated, tested & witnessed by OPECO with the presence of O&M representatives.

Three (3) original copies of this Preliminary Handing Over (FHO) Certificate is signed by all parties. It is agreed that the date 10/5/2017 G is considered as preliminary Handing Over date.

لمن يهمه الأمر

بهذا يفيد بنك الجزيرة - إدارة الإمدادات بأن مؤسسة محمد أسامة السمان للمقاولات قد تم اعتمادها من قبلنا بتصنيع وتركيب الأعمال الخشبية لمشاريع فروع بنك الجزيرة التالية :

1- فرع شهر بمدينة الطائف.

2- فرع الخالدية على الطريق الدائري بالمدينة المنورة.

3- فرع حي اشبيليا بمدينة الرياض.

4- فرع حي العزيزية بمدينة مكة المكرمة.

5- فرع مدينة حائل.

6- فرع المعذر بمدينة الرياض.

وكانت الأعمال الموردة من قبل هذه المؤسسة للفروع المذكورة أعلاه متميزة من حيث الجودة والالتزام بالمواعيد وبناء على طلبهم أعطيت لهم هذه الإفادة دون أننى مسؤولة أو التزام على بنك الجزيرة.

نائب الرئيس ورئيس إدارة الإمدادات

د. إباد بن محمد البوسف

المجموعن الإستشارية

مشروع الإشراف على تنفيذ فروع الهيئة العامة للسياحة والآثار

المشروع : إنشاء مقر فرع الهيئة العامة للسياحة والآثار في منطقة جازان

الموضوع : اعتماد مصنع أبواب خشبية

السادة/ مؤسسة محمد أسامة السمان للمقاولات

عناية المهندس / محمد مظهر الأصفر

صورة لسعادة مدير عام الإدارة العامة للشؤون الهندسية والخدمات الفنية بالهيئة

تحية طيبة وبعد

إشارة إلى كتابكم رقم ٠٩١٢٢٠١٤٠٤٥٧ وتاريخ ١٤٣٦/٢/١٧ والوارد رقم ٢٠٥١ وتاريخ ١٤٣٦/٢/١٨

بخصوص الموضوع أعلاه.

نفيدكم بالموافقة على اعتماد المصانع أدناه لتوريد الأبواب الخشبية:

(١) مصنع الأبواب الخشبية - السمان.

(٢) رفض مصنع الأبواب الخشبية - مؤسسة معتز ضيف الكريم المدني للعقار والمقاولات لعدم

وجود سابقة أعمال.

نأمل تقديم عينات وفقاً للمواصفات ولموافقة المهندس.

شاكرين لكم حسن تعاونكم،،،

محترفي المجموعة الاستشارية

- Corridors.
- Public Areas (Receptions).
- Restaurants.

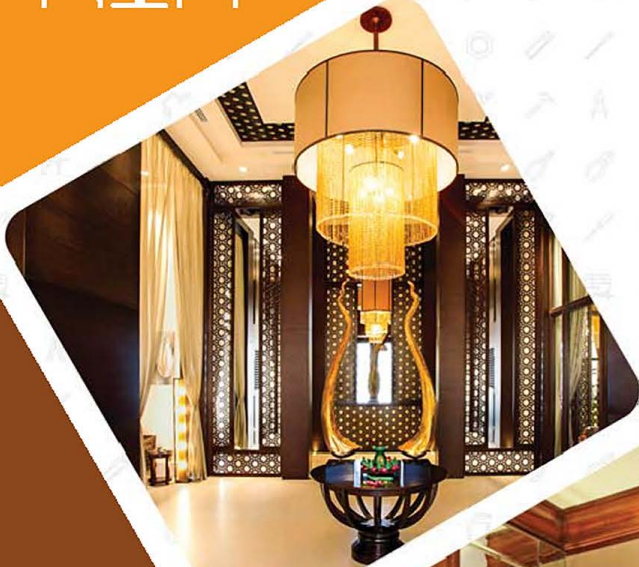

HOTEL FURNITURE

Working exclusively within the hospitality industry, **SAMMAN WOOD WORKS FACTORY** understands the unique demands of executing a renovation project in a fully-operative hotel while maintaining the appearance and level of service your guests expect.

Our long-standing relationships with national Hospitality Management companies, as well as Owner & Developer groups, demonstrate our commitment to client satisfaction and optimal delivery.

FIRE RATED DOOR

SAMMAN Fire Rated Doors are really smart selection at community areas because it looks like other ordinary doorways but they made up of really weighty material .

The main operate of these doorways is to block again hearth and smoke in among compartments or hearth ignition area.

The doorways also stop entry of oxygen into the impacted area. This helps prevent the hearth from receiving fed and spreading.

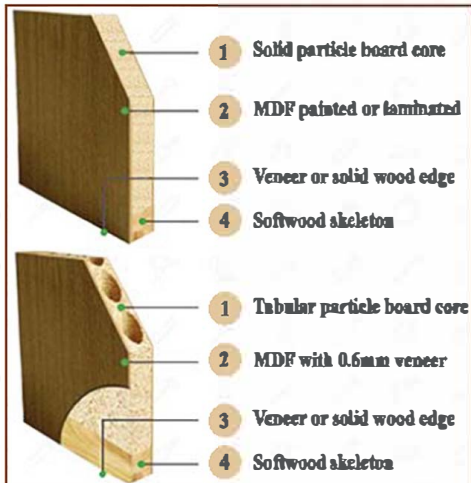

The factory has possessed a certificate for manufacturing Fire Rated Doors from international organizations according to British Specifications, and executed many of big projects, reinforcing its role in establishing the concept and meaning of safety.

The factory has obtained the international management system that complies with ISO requirements and has been registered with the British Certificate Institute.

FLUSH DOOR

SAMMAN WOOD WORKS FACTORY produces a wide range of interior and exterior doors which are divided into four main categories:

- Flush doors (coated with wooden veneer).
- Decorative doors.
- Semi-solid doors (solid wood).
- Solid doors (solid wood mixed with compressed wood).

FLUSH DOOR

Decorative Flush Door

Decorative Flush Door

SAMMAN Flush Doors are an excellent choice for a modern, classic look and a perfect option for small budget renovations.

Choose from our chart, wood veneer & Legacy Pre-finished styles.

Offers the beauty and refinement of an authentic wood grain finish.

High - quality topcoat makes doors extremely durable & easy to maintain.

Available in solid and hollow core construction in 33mm or 38mm thickness.

Laminated Flush Door

In various types of cornices

and architectural glass and frames.

Compressed Doors with Internal Stuffing:

They are distinguished by that the beams and the columns of solid wood and internal solid stuffing designed to be soundproofed so that the formica panels can be added or natural or industrial wood veneer on the outside to suit the taste of the customer.

Modern style door with aluminum creftlines

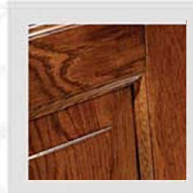

Veneer Flush Door

SEMI SOLID DOOR

Semi-Solid are recommended for internal and external (with special paint or stain) use.

Solid stiles and rails with veneered center panel available wood and veneer (Oak - Ash - Mahogany - Teak - Beech - Cherry - Walnut).

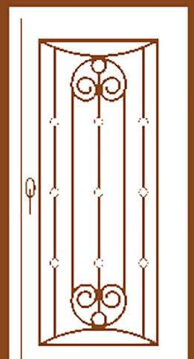

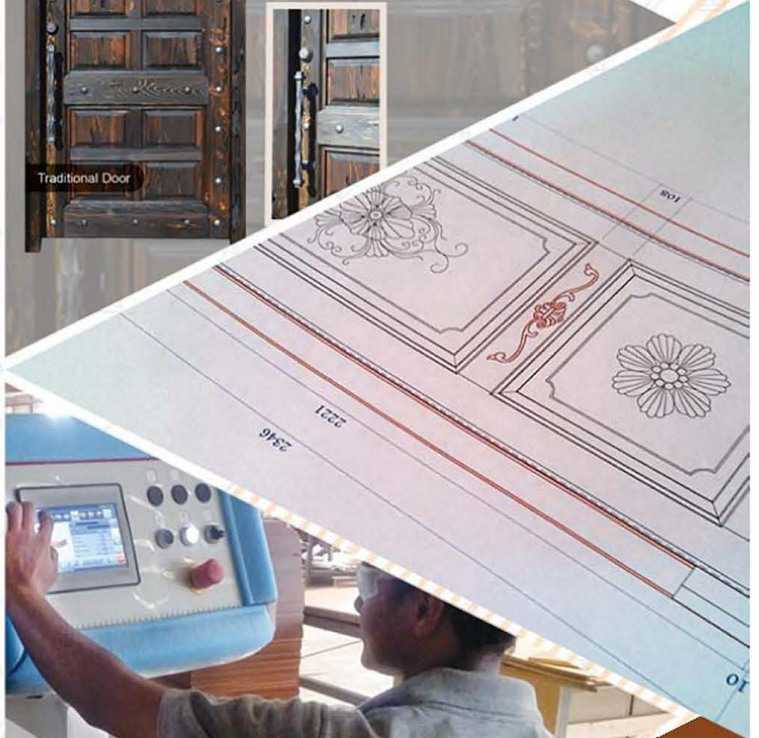

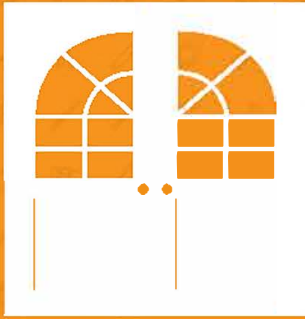

Classical style hand painted Door with inserts

SOLID DOOR

Interior, Main Entrance

Your vision is CAD drawn, the finest woods selected and the components are machine made. Artisan craftsman hand assemble and finish. Personalized options are added to complete your custom Envision Door.

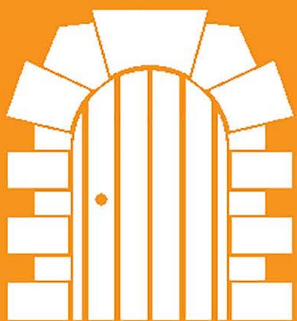

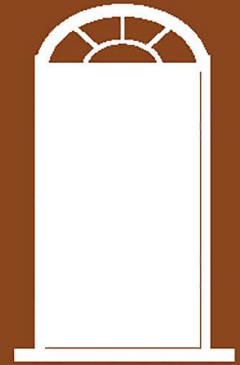

State of the art technology interpreted with Old World Artisan Craftsmanship, aided by today's engineering advances, show itself in every detail of every door we craft.

Entrance door in **SAMMAN WOOD WORKS FACTROY** range are manufactured from the best quality solid timber with raised and fielded panels, which combine strength with elegance. You can choose to brighten the light in both your exterior and interior entrance-way by selecting from our glazed door and sidelight range.

Door Profiles:

The following illustrations disply our standard edge and panel profile. We are able to offer several bo-lection and edge profiles on special request over and above those shown. If you have requirements outside this standard range, please contact our office for more information.

SAMMAN WOOD WORKS FACTROY has manufacturing, supplying and installing all kinds of doors, from traditional wooden villa styles to the very latest contemporary designs. **SAMMAN WOOD WORKS FACTROY** represents the best of our solid timber doors made here in Saudi Arabia by qualified craftsmen from the finest quality timbers.

At **SAMMAN WOOD WORKS FACTORY** we create doors to complement both modern and heritage style homes.

KITCHENS

Classic, Glossy

We create kitchens that feel bespoke and original, hand crafted and functional. The best raw materials such as beautiful oak and pure birch inspire our designs so that we make the most out of our wonderful natural resources. We offer a vast palette of sophisticated paint colours, finishes, sizes, handles and hinges so that you can create your own unique design. We combine contemporary style with traditional form, attention to detail with careful engineering and innovative designs with modern day classics for a stylish and comfortable look that is designed to fit your lifestyle perfectly.

Lifestyle: Modern Style

An island full of ideas sets the scene on centre stage; seating at the bar is symbolic of a new togetherness. Cutting a fine figure, the base-unit pull-out provides plenty of scope for meeting practical needs while also making a homely statement. Whether as storage solution or design element, it perfectly complements an open-plan kitchen.

The high gloss finish of this Modern Style, shown here in red, white and grey defines a look that is instantly contemporary, yet timelessly elegant. The clean, tightly defined lines and expertly rendered finishes, integrate seamlessly to create a modern kitchen for modern living.

Colour: High Glossy Red/White/Grey/Black

Design: Modern Slab

VANITY

Slab, Deco

CLEVER ON THE INSIDE

Whether you choose a built-in or a walk-in wardrobe, it's the internal systems where stegbar combines function with style. The internal configuration of your wardrobe can be designed so changes can be easily accommodated as your needs evolve.

Correctly designed hanging areas make a big difference. We'll design your hanging rails around the number of long garments you have so all your clothes will be stored properly, without being creased.

A combination of fixed and adjustable shelves will give you an extremely practical storage combination.

Adjustable shelves can be moved up or down to accommodate changes or removed completely to make room for bulkier items.

We suggest a good design should include drawers and baskets which come in a range of heights and widths for storing smaller items.

HOSPITALIZATION FURNITURE

WOODEN CLADDING

A collage of seven photographs showcasing the interior design of a modern building. The images highlight extensive wood paneling in various shades of brown and orange, creating a warm and sophisticated atmosphere. Key features include: a large, curved wall with vertical wood slats; a ceiling with horizontal wood beams and recessed lighting; a curved staircase with a metal railing; a reception area with a curved wooden pillar; a wall with a large, intricate wooden lattice screen; a lounge area with a white sofa, a dark wooden coffee table, and a large, ornate wooden screen; and a curved wall with a small, rectangular window. The overall design blends modern architectural elements with traditional Chinese aesthetics.

SMART FURNITURE

The world in constant evolution and the natural needs of people are constantly evolving, and this led to the necessity of furniture products diversity. It is one of our goals to keep pace with development. Samman Factory is known for making wooden innovative products that create wide spaces in narrow areas. WOOD IS OUR CRAFT

Our factory is enforced by the most advanced in industry that is run by skillful and highly selected labor. the professional Operation System of the factory words according to efficient plan in order to ensure accuracy. All of manufactured items are reviewed by the quality control division for superior finishes. The product is ready for packing in a separate unit. The Packing process is a very neat and organized. The manufactured items are rapped with protective material, then labeled to ease its "later on" assembly. We monitor the quality of our products from the minute of its execution to its delivery.

WOOD IS OUR CRAFT

CONCLUSION

Since the beginning of the Mohammed Osama Al-Samman Establishment in 1973, it could find values and concepts in the field of construction, and has taken over the past decade a lot of daring steps, and invested in many fields of business.

The modern thinking, creativity and innovation is one of the most important bases which the organization has based upon it, since the beginning of the growth and prosperity of the investment sector in the kingdom of Saudi Arabia.

The basic principle that governs the works of the Mohammed Osama Al-Samman Establishment is "Strength through Diversity", a common denominator that enable us to commit stability by promise to our customers and our suppliers and our employees.

As a construction company has diverse investments, our strength is the result of over ever-expanding for our construction activities backed with financial, administrative and operational experience.

We have endeavored over the 40 years to take daring steps toward a permanent expansion, and today we clearly see the labor of our strenuous efforts, to become a symbol for its peers among the companies of the institution in the Kingdom of Saudi Arabia.

In Mohammed Osama Al-Samman Establishment we are putting in front of our eyes a future vision, We endeavor to reach it according to the capabilities that we have, our vision to be one of the leading organization of the magical touches of through the implementation of special projects and maintain a high normal reliability and high performance quality which is specialized by Mohammed Osama Al-Samman Establishment in Kingdom of Saudi Arabia.

Our task and mission in the implementation of projects of high quality with the best cost and within specified deadlines should be by employing and supporting flexible work teams, with oriented, specific and clear objectives. We appreciate the importance of special labor relations and we will always endeavor to ensure truth and justice in our dealings with our employees, our customers, and our suppliers.

we are very proud of our achievements and we build on it day to day.

God is the source of strength....
